SKILLS

Frontend

React · Next.js · TypeScript · JavaScript · HTML5 · CSS3 · Tailwind CSS · shadcn/ui · Vite · React Router · i18next

Data & Forms

TanStack Query · TanStack Table · React Hook Form · Zod · REST API

Tools

Git · GitHub · Vercel · Figma

AI

AI-assisted development · Claude

LANGUAGES

Persian	Native
English	Intermediate

PROFILE

Frontend developer with a B.Sc. in Computer Software Engineering who has also completed a coding bootcamp, building modern web applications with React, Next.js and TypeScript. Designed, built and deployed the front end of a bilingual inventory management app and my personal portfolio website. Comfortable with type-safe forms, complex data tables, server-state management and REST APIs, and I use AI tools professionally to speed up development. Looking for a frontend developer role.

PROJECTS

Inventory Manager

Personal project · Frontend

Live demo: **inventory-app-drab-tau.vercel.app**
Source code: **github.com/FatemehYafteh/Inventory-App**

- Wrote the product requirements document (PRD), then built the front end with React and Vite.
- Implemented a dashboard, product catalog, search and filtering, stock-movement history, low-stock alerts and an admin area.
- Handled server state, caching and refetching with TanStack Query; built sortable, filterable tables with TanStack Table.
- Built type-safe forms with React Hook Form and shared Zod validation schemas.
- Made the interface bilingual (English and Persian) with i18next.
- Deployed on Vercel with a public demo account so recruiters can explore it.

React · Vite · Tailwind CSS · shadcn/ui · React Router · TanStack Query · TanStack Table · React Hook Form · Zod · i18next

Portfolio Website

Personal project · Frontend

Live site: **fatemehyafteh.vercel.app**
Source code: **github.com/FatemehYafteh/fatemehyafteh**

- Responsive and accessible design that works on every screen size.
- Configured security headers and social share previews.

Next.js · React · Tailwind CSS · Vercel
